## PiXL Revisit: Transform

**Climate change:** transform this graph that shows long term variations in temperature into key points.

Describing graphs – **PADL**

P = pattern + trend

A = anomalies

D = data

L = link to the question

Source: J.R. Petit, J. Jouzel, et al. Climate and atmospheric history of the past 420 000 years from the Vostok ice core in Antarctica, Nature 399 (3June), pp 429-436, 1999.

Key points

1.

2.

3.

4.

Most  
important +  
WHY:

## PiXL Revisit: Transform

**Climate change:** transform this graph that shows the trends in temperature into key points.

Describing graphs

– **PADL**

P = pattern + trend

A = anomalies

D = data

L = link to the question

Key points

- 1.
- 2.
- 3.
- 4.
- 5.
- 6.

**Most  
important +  
WHY:**

## PiXL Revisit: Reduce and Transform

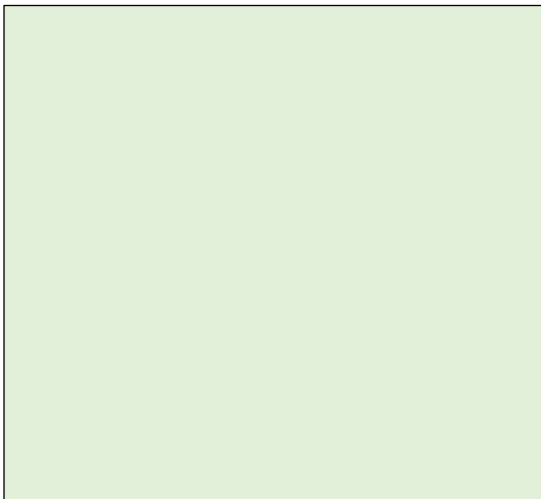

**Climate change.** Reduce: Summarise the natural causes of climate change.

One sentence for each cause. Then transform into a set of images.

1.

2.

3.

## PiXL Revisit: Prioritise - Significance and Importance

**Climate change:** Identify the human causes for climate change. Summarise the key points. Pick out significant facts, figures and places. Prioritise which cause has the greatest impact and say why.

**Summarise human causes of climate change**

**Key facts, data, place.**

**Number of Priority:**

### 1. Agriculture

### 2. use of fossil fuels

### 3. deforestation

## PiXL Revisit: Chunk It

**Climate change:** Chunk the learning from this topic.

You could start with the most important or the most difficult to learn.

1.

2.

3.

4.

5.

6.

7.

8.

9.

10.

## PiXL Revisit: Ranking Triangle

Climate change: Managing climate change - mitigation (reducing causes).

There are a number of mitigation strategies to reduce climate change. Put them in order of effectiveness, and include detail and examples. Make sure you justify WHY you think it is the most/least effective.

Explain in detail your 1<sup>st</sup> place:

---

---

---

---

## PiXL Revisit: Ranking Triangle

Climate change: Managing climate change - adaptation (responding to change).

There are a number of mitigation strategies to reduce climate change. Put them in order of effectiveness, and include detail and examples. Make sure you justify WHY you think it is

the most/least effective.

Explain in detail your 1st place:

---

---

---

---

## PiXL Revisit: Explain it!

Climate change: the enhanced greenhouse effect. Add annotations to the diagram below to explain in detail the enhanced greenhouse effect.

Transform your annotated diagram into a written explanation of the enhanced greenhouse effect.

---

---

---

---

## PiXL Revisit: Diamond 9.

Climate change: Prioritise. Evaluate the strategies used to reduce the impacts of climate change.

## PiXL Revisit: Quizzing - Climate change

Read through your notes/revision books and come up with 10 questions to ask (think about the command words you will use - e.g. describe, explain, assess, evaluate, justify).

	Question	Answer
1		
2		
3		
4		
5		
6		
7		
8		
9		
10		

## PiXL Revisit: Transform.

Read some text about the effects of climate change on people and the environment and convert those into a set of pictures.
